

Numab Therapeutics AG is an evolving, innovative Swiss biotech company based in Wädenswil. The company is focused on the discovery and development of innovative, antibody fragment-based therapeutics. With our breakthrough antibody-discovery and multi-specifics engineering platform, we engage in proprietary projects as well as collaborative research on behalf of partners in the pharmaceutical industry.

For our Protein Engineering team, we are looking for a highly motivated and enthusiastic team member to join us as:

Technician Protein Engineering (m/f)

In this position, you will be involved in the purification and biophysical characterization of antibody hit and lead candidates. You will contribute to the development of antibody-derived therapeutic proteins applying methods from a variety of disciplines, including:

- Expression, purification and characterization of antibodies and antibody fragments
- Planning, execution, analysis and presentation of experiments
- General organization of the laboratories, evaluation and acquisition of equipment and consumables

Your profile should ideally include the following:

- Completed apprenticeship as laboratory technician in biology, chemistry or related fields, preferably with prior industry experience producing recombinant antibodies or antibody fragments in mammalian cells
- Expertise in recombinant protein production and characterization
- Highly accurate and team-oriented working style paired with a high sense of quality and the ability to work independently on diverse challenges
- Refined computer user skills (Windows, MS Office) and communication skills

Are you looking for an inspiring, entrepreneurial atmosphere and want to be part of a dynamic team where your contributions are both essential and valued? We are looking for skilled people who are eager to make an impact. We are offering a diverse position in an innovative environment as well as a competitive compensation package including a participation in the company.

We are looking forward to receiving your application, in either English or German, with reference number NB0037 to hr@numab.com.
