

Numab Therapeutics AG is an evolving, innovative Swiss biotech company based in Wädenswil. The company is focused on the discovery and development of novel, antibody fragment-based therapeutics. With our breakthrough antibody-discovery and multi-specifics engineering platform, we engage in proprietary projects as well as collaborative research on behalf of partners in the pharmaceutical industry.

For our Cell Biology team, we are looking for a highly motivated and enthusiastic person to join us as:

## **Research Technician Cell Biology 100%**

In this position, you will be involved in activities related to the pharmacological characterization of innovative antibody fragment-based lead molecules. You will be responsible for designing, executing and analyzing cellular assays to characterize antibodies and antibody-fragment based mono- and multi-specific therapeutic molecules.

### **Your responsibilities**

- Develop and perform cellular assays (e.g. reporter gene assay, PBMCs assay, flow cytometry-based assays, proliferation assays, etc.) to characterize antibodies
- Generation of high quality data in cellular assay systems to enable the progressing of Numab's discovery projects
- Present your data within team meetings

### **Your profile should ideally include:**

- Completed apprenticeship as laboratory technician in biology or related fields
- Professional experience in an industry setting would be a plus
- Expert knowledge in cell-based assays for the characterization of therapeutic antibodies
- Expertise in flow cytometry
- Experience in the isolation and handling of cellular subsets from PBMCs
- Highly accurate and team-oriented working style paired with a high sense of quality and the ability to work independently on diverse challenges
- Refined computer user skills (e.g. MS Office package) and communication skills

Are you looking for an inspiring, entrepreneurial atmosphere and want to be part of a dynamic team where your contributions are both essential and valued? We are looking for skilled people who are eager to make an impact. We are offering a permanent position in an innovative environment as well as a competitive compensation package including a participation in the company.

**We are looking forward to receiving your application, in either English or German, with reference number NB0049 to [hr@numab.com](mailto:hr@numab.com).**
