

Numab Therapeutics AG is an evolving, innovative Swiss biotech company based in Wädenswil. The company is focused on the discovery and development of novel, antibody fragment-based therapeutics. With our breakthrough antibody-discovery and multi-specifics engineering platform, we are committed to the development of differentiated therapeutics with a focus on helping oncology patients in need.

To maintain and develop Numab's proprietary immune-oncology therapeutic pipeline we are looking for a highly motivated and experienced individual for a role as a Research Associate within our Translational Science team.

Research Associate, Translational Science 100% (m/f)

In this position you will be responsible for delivering high quality data to help drive forward Numab's pipeline of projects within the immune-oncology space. You will be responsible for designing, executing and analysing cellular assays to characterize and profile the mechanism of action of multi-specific therapeutic molecules.

Your Responsibilities

- Generation of high quality, decision driving data in complex cellular assay systems to enable the progression of Numab's immune-oncology pipeline programs
- Work closely with team members to outline next steps and drive the direction of the project
- Increase the technical capabilities and capacity of the team by keeping abreast of state-of-the-art methodologies and techniques within the field of immune-oncology
- Present your data within team meetings and company presentations

Ideal candidates will have

- Expert knowledge in cellular assays for the characterization of therapeutic proteins in immune-oncology
- Expertise in flow cytometry, cytotoxicity and proliferation assays
- Expertise in cell culture techniques
- Experience in the isolation and handling of cellular subsets from PBMCs
- Experience in the maturation, culture and profiling of human dendritic cells
- Experience in interactions with external vendors / CROs is an advantage
- A proactive approach to life and work and a strong goal-oriented mindset
- Exceptional interpersonal and communication skills
- An accurate and independent working style
- Sound oral and written English

Are you looking for an inspiring, entrepreneurial atmosphere and want to be part of a dynamic team where your contributions are both essential and valued? We are looking for skilled people who are eager to make an impact. We are offering a permanent position in an innovative environment as well as a competitive compensation package including a participation in the company.

We are looking forward to receiving your application with reference number NB053 to hr@numab.com.
