

Numab Therapeutics AG is an evolving, innovative Swiss biotech company based in Wädenswil. The company is focused on the discovery and development of novel, antibody fragment-based therapeutics. With our breakthrough antibody-discovery and multi-specifics engineering platform, we are committed to the development of differentiated therapeutics with a focus on helping oncology patients in need.

For our SPR & Ligand Binding team, we are looking for a highly motivated and enthusiastic person to join us as:

Technician SPR & Ligand Binding (100%)

In this position, you will be involved in activities related to the discovery and pharmacological characterization of innovative antibody fragment-based therapeutics. You will be responsible for designing, executing and analyzing biochemical assays to characterize the binding properties of antibodies.

Your responsibilities

- Develop and perform biochemical assays (e.g. ELISA) to characterize antibodies
- Determine affinities and kinetics of antibodies (e.g. by SPR)
- Assess specificity and selectivity of antibodies
- Work closely with team members to outline next steps and help to drive the projects to completion
- Present your data within the team and in project team meetings

Your profile should ideally include:

- Completed apprenticeship as laboratory technician in biology or related fields
- Professional experience in an industry setting would be an advantage
- Experience with the characterization of antibodies using ELISA
- Expertise in conducting SPR-based affinity measurements will be considered as beneficial
- Highly accurate and team-oriented working style paired with a high sense of quality and the ability to work independently on diverse challenges
- Refined computer user skills (Windows, MS Office) and communication skills
- Sound oral and written English

Are you looking for an inspiring, entrepreneurial atmosphere and want to be part of a dynamic team where your contributions are both essential and valued? We are looking for skilled people who are eager to make an impact. We are offering a permanent position in an innovative environment as well as a competitive compensation package including a participation in the company.

We are looking forward to receiving your application, in either English or German, with reference number NB056 to hr@numab.com.
