

Numab Therapeutics AG is an evolving, innovative Swiss biotech company based in Wädenswil. The company is focused on the discovery and development of novel, antibody-fragment based therapeutics. With our breakthrough antibody-discovery and multi-specifics engineering platform, we are committed to the development of differentiated therapeutics with a focus on helping oncology patients in need.

For our SPR & Ligand Binding team, we are looking for a highly motivated and enthusiastic person to temporarily join us for an

Internship in SPR & Ligand Binding (100% temporary for 6 months)

In this position, you will be working on the design, development and testing of assays (e.g. SPR) for the characterization of binding properties of innovative antibody based therapeutics.

Your responsibilities

- Determine binding affinities and kinetics (e.g. SPR) of antibodies, antibody fragments and multi-specific antibody-based proteins to their targets
- Develop assays to measure binding affinity and kinetics (SPR and ELISA)

We are looking for a highly motivated individual who is keen in developing and learning new techniques, and who has a very accurate working style.

Your profile should ideally include:

- Apprenticeship as laboratory technician, and/or BSc/MSc, in biology or related fields
- Highly motivated in learning new techniques and improving scientific skills
- Highly accurate and team-oriented working style paired with a high sense of quality and the ability to work independently on diverse challenges
- Hands-on experience in conducting SPR-based kinetic measurements will be considered as beneficial
- Experience with the characterization of proteins in ELISA is beneficial
- Good computer (Windows, MS Office) and communication skills
- Sound oral and written English

Are you looking for an inspiring, entrepreneurial atmosphere and want to gain insights into innovative drug discovery and development? We are looking for motivated people who are eager to learn and to make an impact. We are offering a temporary position as an entry experience in an innovative biotech environment as well as a compensation.

We are looking forward to receiving your application in English with reference number NB074 to hr@numab.com.
