

Numab Therapeutics AG is an expanding, clinical stage Swiss biotech company based in Wädenswil, canton of Zürich. The company is focused on the discovery and development of innovative, antibody fragment-based therapeutics with a focus on immuno-oncology. With our breakthrough antibody-discovery and multi-specifics engineering platform, we engage in proprietary projects as well as collaborative research on behalf of partners in the pharmaceutical industry.

For our Cell Biology team, we are looking for a highly motivated and enthusiastic person to join us as:

Research Technician/Associate Cell Biology 100%

In this position, you will be involved in activities related to the pharmacological characterization of innovative antibody fragment-based lead molecules. You will be responsible for designing, executing, and analyzing cellular assays to characterize antibodies and antibody-fragment based mono- and multi-specific therapeutic molecules.

Your responsibilities

- Develop and perform cellular assays (e.g. reporter gene assays, flow cytometry-based assays, proliferation assays, PBMCs assays, etc.) to screen and characterize antibodies
- Generation of high-quality data in cellular assay systems to enable the progressing of Numab's discovery projects
- Work closely with team members to outline next steps and help to drive the projects to completion

Your profile should ideally include:

- Completed apprenticeship as laboratory technician or a higher education in biology, (bio-)chemistry or pharmaceutical sciences
- Professional experience in an industry setting would be a plus
- Expert knowledge in development and execution of cell-based assays for the characterization of therapeutic antibodies
- Expertise in flow cytometry
- Experience in the handling of primary cells
- Highly accurate and team-oriented working style paired with a high sense of quality and the ability to work independently on diverse challenges
- Refined computer user skills (e.g. MS Office package, GraphPad prism, etc.) and communication skills

Are you looking for an inspiring, entrepreneurial atmosphere and want to be part of a dynamic team where your contributions are both essential and valued? We are looking for skilled people who are eager to make an impact. We are offering a permanent position in an innovative environment as well as a competitive compensation package including a participation in the company.

We are looking forward to receiving your application, in either English or German, with reference number NB0086 to hr@numab.com.
