

Numab Therapeutics AG is an expanding, clinical stage Swiss biotech company based in Wädenswil, canton of Zürich. The company is focused on the discovery and development of innovative, antibody fragment-based therapeutics with a focus on immuno-oncology. With our breakthrough antibody-discovery and multi-specifics engineering platform, we engage in proprietary projects as well as collaborative research on behalf of partners in the pharmaceutical industry.

To develop Numab's growing proprietary therapeutic pipeline we are looking for a highly motivated and experienced individual for a role as Scientist within our Formulation and Analytics team.

Scientist Analytical Development 100%

In this multi-faceted position, you will contribute to drive Numab's projects towards development and the clinical stage. You will be responsible for the development of analytical methods and the thorough characterization of our multi-specific lead candidates.

Your Responsibilities

- Responsible for the development of lead candidate specific analytical methods to support process and formulation development, e.g. SE-HPLC, CEX-HPLC, cGE
- Hands-on contribution to the formulation development using state of the art methods for the biophysical characterization of our lead candidates
- Coordination of routine as well as product and process related impurity analysis, data review and report generation
- Review of external method development reports and method transfer
- Further expansion of the method spectrum in the field of antibody-based multi-specifics
- Data compilation and statistical analysis, presentation of results to internal & external audience

Ideal candidates will have

- MSc or PhD in life sciences with a focus on protein biochemistry and industry experience in the field of protein analytics
- Professional experience in LC-based analytical development including the use of DoE
- In depth knowledge of HPLC and cGE equipment and related software
- Profound knowledge in the protein characterization by DSF, DLS and other methods
- Flexible and solution focused with strong organizational and documentation skills
- Independent working style with a high sense of accuracy and quality
- Strong team player, with the ability to lead and instruct associates
- Excellent communication skills in English, preferably also in German

Are you looking for an inspiring, entrepreneurial atmosphere and want to be part of a dynamic team where your contributions are both essential and valued? We are looking for skilled people who are eager to make an impact. We are offering a permanent position in an innovative environment as well as a competitive compensation package including a participation in the company.

We are looking forward to receiving your application with reference number NB085 to hr@numab.com.
