

Numab Therapeutics AG is an expanding, clinical stage Swiss biotech company based in Wädenswil, canton of Zürich. The company is focused on the discovery and development of innovative, antibody fragment-based therapeutics with a focus on immuno-oncology. With our breakthrough antibody-discovery and multi-specifics engineering platform, we engage in proprietary projects as well as collaborative research on behalf of partners in the pharmaceutical industry.

To develop Numab's growing proprietary therapeutic pipeline we are looking for a highly motivated and experienced individual for a role as Research Associate within our Formulation and Analytics team.

Research Associate Formulation Development 100%

In this multi-faceted position, you will contribute to drive Numab's projects towards development and the clinical stage. You will be responsible for the development of liquid and lyophilized formulations of our multi-specific lead candidates.

Your Responsibilities

- Characterization of our antibody-based biologics, e.g. pH and excipient screens
- Execution of (pre-)formulation studies for liquid and lyophilized drug products, also by using DoE approaches
- Analyze formulations during stability studies using several analytical methods (e.g. SE-HPLC and cGE, content by A280nm, visible particles)
- Critically review and interpret raw data, present scientific results to project teams
- General organization of the laboratories, evaluation and acquisition of equipment and consumables

Ideal candidates will have

- Completed BS, MSc. or equivalent in biochemistry, pharmaceutical sciences, or related disciplines
- Industry experience in the development of parenteral formulations of biologics
- Experience in analytical methods (e.g. SE-HPLC, CEX-HPLC, cGE)
- Experience in biophysical methods, e.g. DSF and DLS, is a plus
- Independent working style in a team environment
- Excellent documentation, reporting and communication skills in English

Are you looking for an inspiring, entrepreneurial atmosphere and want to be part of a dynamic team where your contributions are both essential and valued? We are looking for skilled people who are eager to make an impact. We are offering a permanent position in an innovative environment as well as a competitive compensation package including a participation in the company.

We are looking forward to receiving your application with reference number NB087 to hr@numab.com.
