

Numab Therapeutics AG is an expanding, clinical stage Swiss biotech company based in Horgen, canton of Zürich. The company is focused on the discovery and development of novel, antibody fragment-based therapeutics. With our breakthrough antibody-discovery and multi-specifics engineering platform, we are committed to the development of differentiated therapeutics with a focus on helping oncology patients in need.

To expand and develop Numab's proprietary immune-oncology therapeutics pipeline we are looking for a highly motivated team player for a role in our Formulation and Analytics team.

Research Technician Protein Analytics 100%

In this position, you will be responsible for delivering high quality analytical data to drive Numab's projects towards development. You will be responsible for the execution and evaluation of physico-chemical analysis and in-depth biophysical characterization of our lead molecules using state of the art equipment.

Your Responsibilities

- Development of analytical methods for our antibody-based development candidates
- Characterization and analysis of our scFv and multispecific molecules by various techniques, e.g. SE-HPLC, cGE, nanoDSF, and DLS
- Setup of forced degradation studies and support of the formulation development

Ideal candidates will have

- Completed apprenticeship as laboratory technician in biology, chemistry or related fields, preferably with industry experience in analytics of biologics
- Hands-on experience in protein analytics using SE-, HIC-, IEX- and/or RP-HPLC.
- Expertise in the development of analytical methods
- Experience in DLS, nanoDSF or other biophysical methods is a plus
- Accurate and team-oriented work style as well as a high sense of quality
- Refined computer user skills (Windows, MS Office)
- Good communication and documentation skills in English, both written and oral

What we Offer:

- A diverse field of activity in a dynamic SME with an inspiring, entrepreneurial atmosphere
- Flat structures and fast decision-making
- The opportunity to take responsibility, help shaping and implementing solutions
- Employment conditions in line with the market, superior pension plan and opportunities for further personal development
- Regular bonus and participation in the employee stock option plan
- Participation in several fun team events
- A workplace near the city of Zurich overseeing the lake

We are looking forward to receiving your application with reference number NB0108 to hr@numab.com.
